

Environmental Policy Statement

Terasaki Electric (Europe) Ltd (TEE) is an international company producing and distributing innovative circuit protection, control, and system products for low voltage electrical energy distribution.

TEE is fully committed to the continual improvement of the environmental management system through constant monitoring and review to reduce our environmental impacts.

TEE recognises that our day to day operations inevitably have an impact on the environment in a number of ways. We are committed to minimising the potentially harmful effects of our business when and wherever possible.

In order to carry out our environmental policy we will:

- Endeavour to achieve environmental best practice wherever practicable.
- Integrate environmental management into business practice, ensuring resources are available to ensure policy implementation.
- Meet and where possible exceed all applicable legislation and other compliance obligations.
- Reduce waste generation by processes within its manufacturing systems by careful consideration of material choices, design of products, process selection and packaging systems design.
- Provide necessary training and support for staff to ensure they are able to fulfil commitments regarding environmental issues.
- Re-use or recycle materials wherever possible, ensuring methods of waste disposal are safe and create no long term environmental impact.
- Work with our suppliers to minimise the impact of their operations on the environment and encourage best practice.
- Manage energy use and reduce wherever possible.
- Eliminate or reduce harmful emissions wherever possible.
- Market products which are safe for the environment and wherever possible, which can be recycled or disposed of safely.
- Respond to local concerns regarding environmental issues either by local groups or employees.

The company will ensure this policy statement is displayed on all main notice boards across the business, it will also be available on the EMS for view and will be communicated to other interested parties. This policy will be reviewed at least annually for effectiveness and to ensure its relevance to the business.

Ultimate responsibility for the EMS is that of the MD but environmental management is the responsibility of everyone in the organisation. In recognising this the company has appointed a QHSE Manager to oversee all environmental matters.
